About Me

Passionate Frontend Developer with hands-on experience building modern, responsive and user-friendly websites. Skilled in HTML5, CSS3, SASS and JavaScript, with a strong eye for clean code, smooth animations and pixel-perfect design. I love turning creative ideas into beautiful, fast-loading interfaces that work flawlessly on every device. Always eager to learn, improve and deliver high-quality work.

Experience

Freelance Frontend Developer

Self-employed · Remote

- Design and develop modern, responsive landing pages and websites.
- Turn Figma and UI designs into pixel-perfect, mobile-first layouts.
- Optimize performance, SEO and accessibility for every project.
- Deploy and maintain websites using GitHub and Netlify.
- Write clean, maintainable and well-structured code.

Self-Taught Web Developer

Independent Learning Journey

Built a strong foundation in frontend development through intensive self-study, daily practice and real-world projects. Mastered modern HTML, CSS, SASS and JavaScript by exploring advanced patterns, animations and responsive design techniques.

Core Strengths

Responsive Design
Mobile-first layouts that look perfect on every screen size.

Clean Code
Readable, maintainable and well-organized code structure.

Pixel-Perfect UI
Translating designs into interfaces that match every detail.

Performance
Fast-loading websites with optimized assets and smooth animations.

Problem Solving
Debugging and finding creative solutions to complex challenges.

Continuous Learning
Always exploring new tools, techniques and best practices.

Education & Learning

Frontend Development — Self-Taught

[redacted]

Continuous learning through online courses, official documentation, community projects and daily hands-on practice in HTML, CSS, SASS and JavaScript.
